VER ESTE PASO - 48:30

PASO 2 DE 8

Ink both sides of the embossing folder with your chosen ink colour. Apply the ink evenly across the raised pattern on both the top and bottom sections of the folder.

VER ESTE PASO - 48:45

PASO 3 DE 8

Place the patterned paper into the inked embossing folder, ensuring it is positioned centrally within the folder to capture the full embossed design.

VER ESTE PASO - 49:00

PASO 4 DE 8

Run the patterned paper with the embossing folder through your embossing machine to emboss the design onto the paper. The embossed pattern will create a raised texture on the inked surface.

VER ESTE PASO - 49:15

PASO 5 DE 8

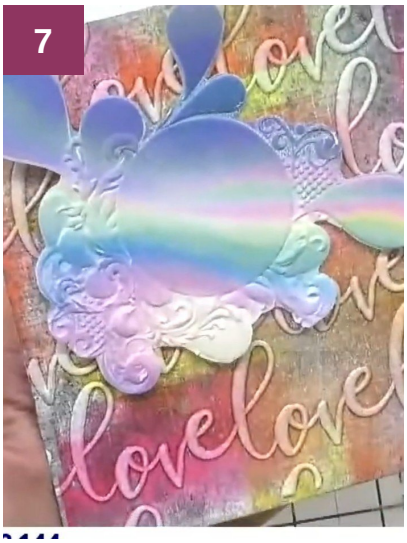
Examine the embossed result and observe how the beautiful pattern interacts with the embossed design. Note the dimensional effect created where the embossing has raised the patterned paper.

VER ESTE PASO - 49:45

PASO 6 DE 8

If using pigment ink, allow the embossed piece to air dry completely or use a heat gun to set the ink before handling. This prevents smudging and ensures the ink is fully dry.

VER ESTE PASO - 50:15



PASO 7 DE 8

If desired, sprinkle embossing powder over the wet embossed design. Heat set with a heat tool to create a sealed, dimensional finish with an iridescent or pearlescent sheen.

VER ESTE PASO - 50:45

PASO 8 DE 8

Trim the embossed patterned paper and mount it onto white cardstock. The iridescent rainbow effect created by the embossing folder and ink overlay will create a beautiful dimensional finish to your card.

VER ESTE PASO - 51:15

CONSEJOS DEL PROGRAMA

- Pigment inks sit on top of glossy or plastic-coated papers and may take days to dry; consider sealing with clear embossing powder.
- Experimenting with different ink and paper combinations can yield unexpected and beautiful results.
