

Double-Glazed Window Card with Holographic Background

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CREATE AND CRAFT TV - 17 DE OCTUBRE DE 2023

SOBRE ESTE PROYECTO

Create an elegant card featuring a double-glazed window effect using layered window dies. Position holographic card stock behind the windows to simulate shimmering northern lights or glass reflections, with snowy winter scenes visible through each pane. The layered construction creates genuine depth and a sophisticated three-dimensional perspective.

PASO A PASO

PASO 1 DE 7

Cut out your first window die from white or coloured card stock using your die cutting machine. The die creates a house shape with open window frames.

PASO 2 DE 7

Apply glue to the back of the die-cut window frame. Adhere it to your white card base, positioning it centrally.

[VER ESTE PASO - 53:30](#)

PASO 3 DE 7

Die cut a second window frame from holographic or patterned card stock using the same die. This will create the outer frame for your double-glazed window effect.

[VER ESTE PASO - 54:00](#)

4

PASO 4 DE 7

Position the second window die-cut frame on top of the first window frame, aligning them to create a double-glazed effect with the winter scene visible through both layers.

[VER ESTE PASO - 54:30](#)

5

PASO 5 DE 7

Position your chosen scene or background image behind the window die-cut so it shows through both window panes. Hold it in place to check the positioning before securing.

[VER ESTE PASO - 55:00](#)

6

PASO 6 DE 7

Position and adhere the second window frame on top of the first, ensuring both frames are perfectly aligned. Press firmly to secure the layers together for a neat, professional finish.

[VER ESTE PASO - 55:30](#)

7

PASO 7 DE 7

Position the scenic window die-cut pieces behind the window apertures to create depth and perspective. The layered scenes should be visible through both window panes, creating an authentic double-glazed effect with the holographic background showing through.

CONSEJOS DEL PROGRAMA

- The shadow details on the window dies add realistic depth and make the windows look three-dimensional.
- You can open the windows like doors if you score and fold them appropriately.
- Holographic or patterned card stock behind the windows creates the illusion of reflections or views.
