

## Teal Rose with Water Spray Technique

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - FRIDAY START TO THE WEEKEND - 13 DE OCTUBRE DE 2023

### SOBRE ESTE PROYECTO

Create a beautiful teal-coloured rose arrangement with a soft, watercolour effect. Using layered stencils and a water spray technique, you'll blend inks to achieve an artistic, painterly finish. The result is a delicate floral design with subtle colour gradations and a dreamy, ethereal quality.

## PASO A PASO

1

### PASO 1 DE 8

Position the rose branch stencil on your white card base and secure it in place with magnets to hold it steady whilst working.

2

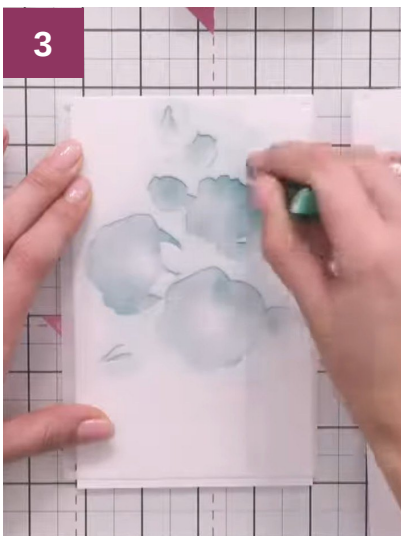

### PASO 2 DE 8

**Apply teal-coloured ink through the first stencil using an ink blending brush.** Hold the stencil in place with one hand whilst applying the ink with circular motions.

[VER ESTE PASO - 18:00](#)

3

### PASO 3 DE 8

**Carefully remove the first stencil layer.** Position the second layer of the rose branch stencil on your card, aligning it carefully with the embossed outline from the first layer.

[VER ESTE PASO - 18:15](#)

## PASO 4 DE 8

**Apply a darker teal ink through the second stencil layer, pressing lightly to avoid over-saturation.** Use gentle pressure to build up the colour gradually without making the paper too wet.

[VER ESTE PASO - 18:30](#)

## PASO 5 DE 8

**Lightly spray water around the edges of the yellow stamped design to create a soft bleed effect.** The water will cause the ink to spread gently outwards for a watercolour appearance.

[VER ESTE PASO - 26:15](#)

## PASO 6 DE 8

**Allow the water to work its magic and soften the ink naturally.** Let the water sit on the stamped image without disturbing it, allowing the colours to blend and create soft, organic effects.

[VER ESTE PASO - 26:30](#)

## PASO 7 DE 8

**Position the third stencil layer over your design and apply the teal shade with blue undertones using a blending tool or sponge.** Build up the colour gradually to create depth and dimension in the rose design.

[VER ESTE PASO - 32:00](#)

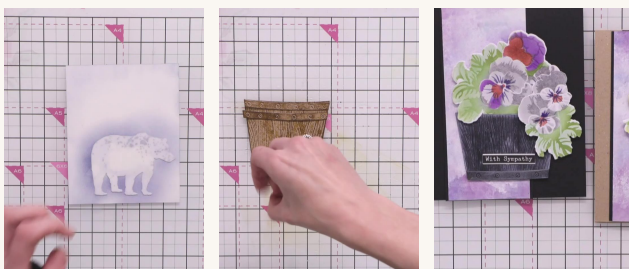

## PASO 8 DE 8

**Using green ink, add the final details to complete the foliage on your design.** Apply the ink to enhance the leaves and stems created with the rose branch stencil.

[VER ESTE PASO - 33:00](#)

## CONSEJOS DEL PROGRAMA

- Spraying water on the edges rather than the centre helps maintain some definition in the design.
- Ocean and Tiffany are two different teal colours—one has green undertones and one has blue undertones, creating different effects.
- You can revisit earlier stencil layers to bring back detail if the water spray has diluted the colour too much.
