

Reflection Collection Stamp Card with Water Scene

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - HOBBYMAKER TV - 18 DE SEPTIEMBRE DE 2026

SOBRE ESTE PROYECTO

Create a stunning card featuring an autumnal landscape scene with a built-in water reflection effect. Using stamps from the Reflection Collection, you'll create a vibrant sunset scene with trees and foliage in warm oranges, reds, and yellows against a dramatic sky. The stamping technique captures both the landscape and its mirror image in water, creating a complete reflected scene with minimal effort.

PASO A PASO

1

PASO 1 DE 5

Select a background paper from the Urban Life paper pad in your chosen colour scheme. Alternatively, use your own card stock in coordinating colours such as peaches, creams, and yellows.

2

PASO 2 DE 5

Select a stamp from the Adventure Awaits Reflection Collection. The collection includes silhouette designs of cyclists, dancers, trees and countryside scenes that work well for creating reflection effects.

PASO 3 DE 5

Ink up your chosen stamp from the Adventure Awaits collection with your selected ink colour. Stamp the image onto your background paper, positioning it centrally within the stencilled frame to create a layered scene effect.

PASO 4 DE 5

To create a variation, stamp only the top portion of the image without the reflection. This creates a scene showing just the main subject, such as buildings or landscapes, without the water reflection below.

PASO 5 DE 5

Add finishing touches to complete your card. Layer torn vellum pieces over the stamped scene for a soft, ethereal effect. Position sentiment stamps or additional embellishments as desired to enhance the design.

CONSEJOS DEL PROGRAMA

- You do not have to use the full reflection; you can stamp just the top portion of the image if you prefer.
- The uncoated paper allows you to stamp directly onto the background designs.
- Torn vellum can be wrapped around the card to add a delicate finishing touch.
