PASO 10 DE 10

CONSEJOS DEL PROGRAMA

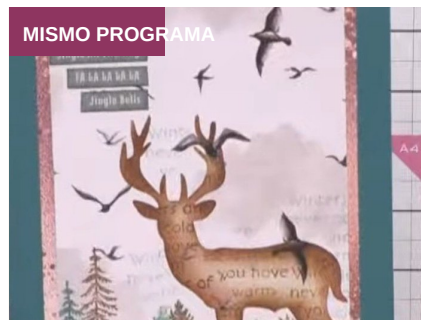

- Cream cardstock softens the overall look compared to white, similar to how using grey or brown ink softens a design compared to black.
- When adding ink on top of embossing powder, burnish with a tissue to bring the colour off the top and restore the embossing's glowy finish.
- Consider stamping the cotton flower design across the envelope seal or corner as a finishing touch to coordinate the whole piece.
