

Black and White Star Embossing Folder Card

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CREATE AND CRAFT TV - 10 DE JULIO DE 2023

SOBRE ESTE PROYECTO

Create a striking black and white card using HD 3D embossing folders to achieve layered star effects. This modern design features selective inking techniques combined with stamped elements for a professional, contemporary finish. The elegant monochrome palette with gold accents creates a sophisticated greeting card.

PASO A PASO

1

PASO 1 DE 9

Apply black ink across the entire surface of the HD 3D star embossing folder using an ink pad or sponge.

[VER ESTE PASO - 42:30](#)**2**

PASO 2 DE 9

Lightly brush black ink onto just the star design area of the embossing folder to add selective colour to that section only.

[VER ESTE PASO - 43:00](#)**3**

PASO 3 DE 9

Use a tissue to gently remove excess ink from the unwanted areas of the embossing folder, leaving the raised embossed pattern clean.

[VER ESTE PASO - 43:30](#)

4

PASO 4 DE 9

Place your white card into the star embossing folder. Run the folder through your die-cutting machine to create the raised star texture on the card.

[VER ESTE PASO - 44:00](#)

5

PASO 5 DE 9

Examine both sides of the embossed card to see the dimensional star-upon-stars effect created by the embossing folder.

[VER ESTE PASO - 44:30](#)

6

PASO 6 DE 9

Trim a piece of gold card to create a narrow strip that will hide the edge line of the embossing folder and add visual interest to your design. Position this strip along the edge where the embossed pattern meets the card base.

[VER ESTE PASO - 45:00](#)

PASO 7 DE 9

Stamp your chosen sentiment in black ink onto the white embossed card panel. Position it towards the bottom of the panel, leaving space for the design above.

[VER ESTE PASO - 45:30](#)

PASO 8 DE 9

Adhere the embossed white star panel to the kraft card base, positioning it off-centre in the upper portion of the card for visual balance.

[VER ESTE PASO - 46:00](#)

PASO 9 DE 9

Position and mount your embossed focal image onto the card base. The embossed panel should be centred on the kraft card base, creating a layered effect with the white embossed design visible on top.

CONSEJOS DEL PROGRAMA

- You can use the embossing folder on its own without stamping for a beautiful white-work effect.
- Don't worry if you don't line up the embossing folder perfectly—extra texture is not a problem.
- Use both sides of the embossing folder to choose which effect you prefer before adhering to your card.
