**PASO 2 DE 8**

Select a topper sheet from the collection and carefully fussy-cut around a flower or design element using scissors, following the printed outline closely.

Position the fussy-cut flower topper behind the aperture window and glue it in place from behind, ensuring the design is centred within the opening.

Take a second topper from your collection and carefully fussy-cut around additional floral elements. Remove some leaves or petals to create variation from your first topper, cutting precisely around the printed designs.
