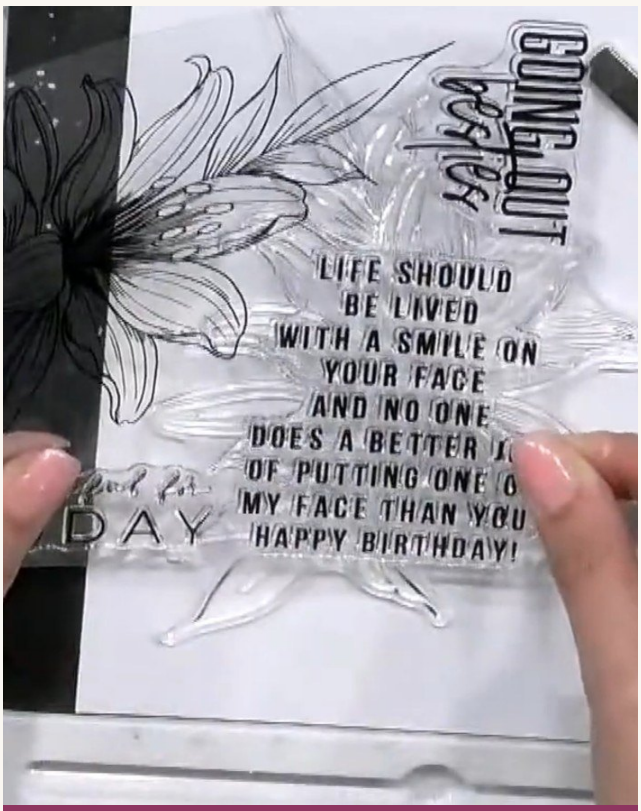
Fussy-Cut Stamped Focal Point on Shaped Card

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CREATE AND CRAFT TV - 28 DE MAYO DE 2023



EL PROYECTO TERMINADO

SOBRE ESTE PROYECTO

Create a stunning dimensional card featuring a beautifully fussy-cut white lily as the focal point. The large stamped flower is carefully cut out and mounted onto a vibrant blue lattice-patterned card base, creating an elegant layered effect. This project combines precise stamping and cutting techniques with decorative embossed backgrounds for a professional handmade card.

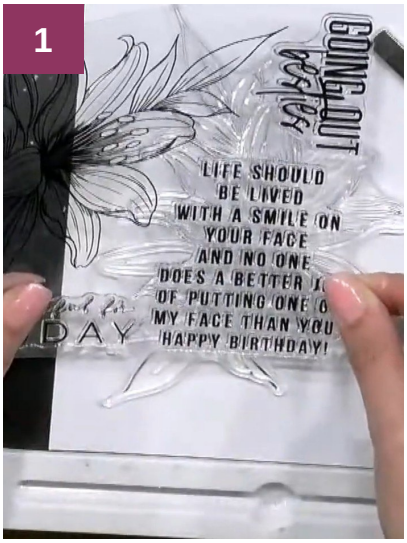
PASO A PASO

1



PASO 1 DE 8

Stamp the large floral sentiment image from the A5 stamp set onto white cardstock using black ink. Position the stamp to create a focal point with the flowers and text clearly visible.

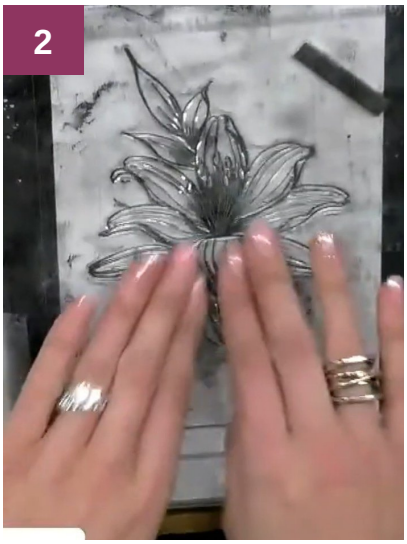
2

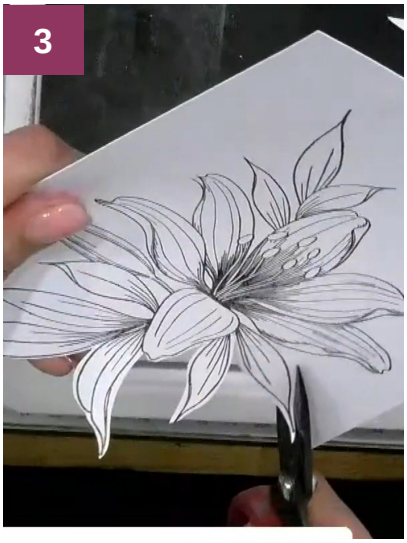


PASO 2 DE 8

Carefully fussy-cut around the stamped lily image using small scissors, leaving a small border of white space around the design. Take your time to follow the contours of the petals and leaves for a neat finish.

VER ESTE PASO - 45:00

3



PASO 3 DE 8

Use the lattice die to cut a shaped card base from white cardstock. The die will create a decorative lattice pattern with a curved edge that will form the base of your card.

VER ESTE PASO - 46:00

PASO 4 DE 8

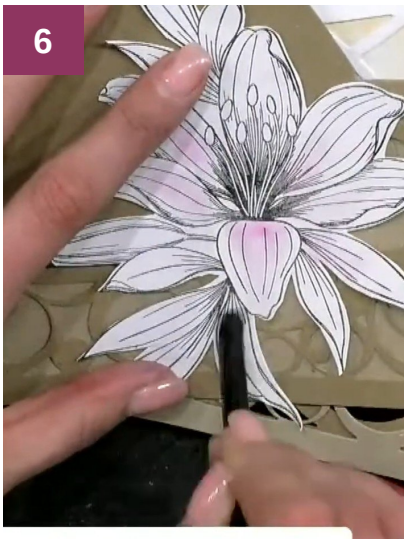
Fold the lattice card in half to create a Slimline format. The card features a pink geometric lattice pattern on white cardstock.

VER ESTE PASO - 48:00

PASO 5 DE 8

Apply a small amount of adhesive to the back of the fussy-cut lily image. Use a precision adhesive or glue pen to carefully apply adhesive to the reverse side of the stamped and cut-out flower.

VER ESTE PASO - 49:00



PASO 6 DE 8

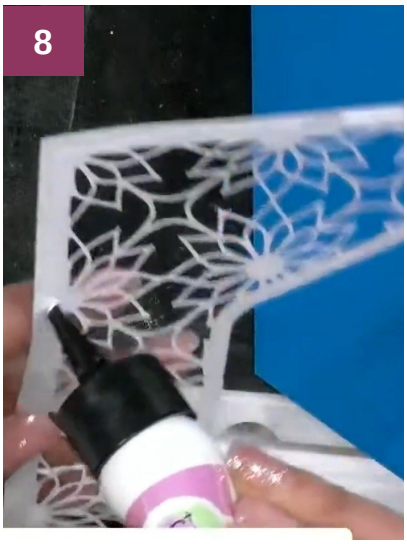
Position the fussy-cut lily flower onto the front of the shaped card base. Use a brush to apply adhesive to the back of the flower before placing it centrally on the embossed panel.

VER ESTE PASO - 49:30

PASO 7 DE 8

Attach foam pads to the back of your fussy-cut lily element. This will create dimension and lift when you mount it onto your card.

VER ESTE PASO - 50:00



PASO 8 DE 8

Using a fine brush, add a touch of pink ink to the centre of the flower on your die-cut stencil design for added detail and dimension.

CONSEJOS DEL PROGRAMA

- You don't need to be perfect when fussy-cutting; a slightly imperfect cut actually enhances the handmade feel.
- If you're not confident fussy-cutting by hand, you can scan and cut the stamped image using a Brother Scan and Cut machine.
- Start with light colour application; you can always add more colour but cannot remove it.
