

Técnica de acuarela para adornos sumergidos

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CREATE AND CRAFT TV - 22 DE MAYO DE 2023

SOBRE ESTE PROYECTO

Create beautiful watercolour embellishments using a quick dipping technique with metallic ink pads. This project shows you how to wet die-cut flowers and leaves, then dip them into colourful ink pads to create stunning gradient effects in turquoise, pink and green. The watercolour naturally settles into the embossed details, creating depth and dimension perfect for card making and mixed media projects.

PASO A PASO

PASO 1 DE 4

Cut out individual hibiscus embellishments from white cardstock using the embossing folder and die. Place the cut-out embellishments onto your craft mat ready for the next step.

PASO 2 DE 4

Using a clean water brush or paintbrush, wet the entire surface of the white embossed embellishment thoroughly. Ensure all areas are dampened evenly to prepare for the watercolour application.

PASO 3 DE 4

Dip the wet embossed piece directly into the green ink pad to pick up the pigment. The wet embossing will absorb the colour from the ink pad, creating a watercolour effect.

PASO 4 DE 4

Allow the green watercolour ink to settle naturally into all the grooves and detail of the embossed design, ensuring the colour fills the recesses completely.

CONSEJOS DEL PROGRAMA

- This method is faster than painting and creates beautiful natural shading as the colour finds its own way into the recesses.
