

Quick Acetate Floating Card with Mount and Sentiment

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CREATE AND CRAFT TV- SBM ONE DAY SPECIAL - 6 MAY...

SOBRE ESTE PROYECTO

Create a sophisticated card featuring a textured white mount layered on clear acetate for an elegant floating effect. The design showcases bold black decorative elements with a simple sentiment and minimal embellishment for a modern, clean aesthetic. This quick technique combines die-cutting, acetate layering and dimensional mounting for a professional finish.

PASO A PASO

PASO 1 DE 8

Cut a piece of red mirror card acetate. Score down one side to create a fold line for your card base.

PASO 2 DE 8

Cut a piece of red metallic cardstock slightly smaller than your acetate piece. This will sit behind the floral panel to provide a coordinating background layer.

PASO 3 DE 8

Adhere one of the textured mounts to the front of your acetate panel, positioning it off-centre on the floral patterned surface to create a floating effect.

PASO 4 DE 8

Die-cut your sentiment (such as 'Made with Love') in two colours—one in a metallic shade and one in white—to create a drop shadow effect. Layer the white die-cut slightly offset behind the metallic one to create dimension.

PASO 5 DE 8

Position the purple metallic 'love' sentiment on the card front near the bottom edge. Offset the white 'love' sentiment slightly behind the metallic one and adhere both pieces together to create a layered effect.

PASO 6 DE 8

Add two small leaves from your embellishment stash and tuck them under the purple sentiment piece for subtle interest.

[VER ESTE PASO - 46:00](#)

PASO 7 DE 8

Open the card and adhere your coordinating cardstock piece to the inside back panel. This will hide the glue marks showing through from the back of the acetate.

PASO 8 DE 8

Allow the card to dry completely before handling. This ensures all adhesive and any ink or embellishments are fully set. Once dry, your acetate floating card with mount and sentiment is complete.

CONSEJOS DEL PROGRAMA

- When using acetate, you need a backing piece to hide the glue on the reverse side.
- Simple cards are often the best cards; you do not need to use every element available.
