

Sweet Pea Garden Aperture Window Card with Layered Mount

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CREATE AND CRAFT TV- SBM ONE DAY SPECIAL - 6 MAY...

SOBRE ESTE PROYECTO

Create a beautiful card featuring a Sweet Pea Garden design with a dimensional aperture window effect. The embossing folder creates a raised 3D design with a chamfered frame in soft pastel tones. Layer the die-cut elements with foam pads to create depth and the illusion of looking through a garden window.

PASO A PASO

PASO 1 DE 8

Place your cardstock inside the embossing folder with the die positioned where you want the aperture. Run it through your die-cutting machine to create both the embossed design and the die-cut aperture window.

PASO 2 DE 8

Carefully pop out the die-cut design from the embossed white cardstock, removing all the cut pieces to reveal the aperture window.

PASO 3 DE 8

Select a floral mount from your collection and remove the foam pads from the back. The white butterfly mount works well for this design.

CONSEJOS DEL PROGRAMA

- You can paint the Sweet Pea flowers in colours like pink, red, purple or blue for added personalisation.
- Don't waste the trimmed mount pieces—use them for sentiments or other card elements.
- The die can be removed from the embossing folder using low-tack tape, allowing you to use the folder alone if desired.
