IL PROGETTO

Create this charming 8x8 inch interactive card featuring a delightful housing estate scene with a clever A-Z fold mechanism. The design showcases rustic kraft-toned panels with white heat-embossed floral borders, combined with a white pop-up village scene complete with cottage houses, flowers, and foliage. When opened, the card extends to reveal multiple panels and a dimensional 3D scene that springs to life.

CONSIGLI DALLA PUNTATA

- The long side of the strip piece glues to the front, and the short side creates the square that folds inside—this is the key to making the interactive mechanism work.
- Heat embossing the stamped flowers helps prevent fingerprints and creates a nice textured effect on the background.
- You can use die-cut flowers, foliage, and other elements from your stash to build up the scene—don't feel limited to just stamping.
