

Shaped Easel Card with Waste-Free Die Layers

UN PROGETTO DALLA NOSTRA DIRETTA - THE THURSDAY DROP - 30 APRILE 2026

IL PROGETTO

Create an elegant landscape-oriented shaped easel card that folds flat for posting. This project uses nested waste-free dies to create layered white card stock shapes, with foam pads providing dimension and an easel mechanism that allows the decorative front panel to stand proud when opened. The clever design maximises your materials whilst creating a stunning three-dimensional effect.

PASSO PASSO

1

PASSAGGIO 1 DI 8

Cut three identical shaped pieces from white card using the largest waste-free die from the Dotty Framework set, running the die through your machine three times.

2

PASSAGGIO 2 DI 8

Take the largest shaped piece and score it from point to point without cutting through. Fold the piece in half along the score line to create your base card.

CONSIGLI DALLA PUNTATA

- Do not glue the smallest piece to the back of the stand-up piece, only to the front, so the card folds flat.
- Make sure your card is straight when gluing the hinge to avoid the easel sitting at an angle.
- If the card is too tall for a standard envelope, you can trim the pieces down to fit.
