IL PROGETTO

Create a beautiful card featuring layered potted flowers in varying shades of green and brown cardstock. CONSIGLI DALLA PUNTATA

- If an intricate die doesn't cut all the way through, place a piece of paper underneath your cardstock on the cutting mat to help the die push through more effectively.
- You can use any shades of green or brown from your cardstock stash; if you don't have coloured cardstock, use white and add ink to it instead.
