Create a sophisticated card featuring an embossed donut character with tonal shading using alcohol markers and white highlights. CONSIGLI DALLA PUNTATA

- Use Versafine black ink when embossing with black powder to avoid watermark effects from sticky ink pads.
- A white pencil is essential for adding highlights and bringing dimension to your coloured characters.
- You don't need specialist card stock for alcohol marker colouring unless you're aiming for a catalogue-style finish; regular card stock works fine.
