

Abstract Tulip Layered Stencil Card with Watercolour Spray Effect

UN PROGETTO DALLA NOSTRA DIRETTA - ANYTHING GOES - 22 MARZO 2023

IL PROGETTO

Create a stunning layered stencil card featuring abstract tulips in soft pinks and greens. This project demonstrates two beautiful techniques: precise stencilling for a clean, contemporary look, and a watercolour spray effect that creates artistic bleeds and blends around the floral design. The finished card showcases elegant tulip blooms with the sentiment 'Collect Beautiful Moments'.

PASSO PASSO

PASSAGGIO 1 DI 12

Remove all four numbered stencils from the packet. Locate the small heart registration marks in the corners of each stencil, which will help you align the layers correctly.

PASSAGGIO 8 DI 12

Place the stencil on a fresh piece of white card. Using the ink pad, apply the first layer of the tulip design through the stencil, building up the image one layer at a time.

PASSAGGIO 9 DI 12

After inking stencil one, lightly mist the inked area with water from a spray bottle. Allow the pink ink to bleed and spread, creating a soft watercolour effect around the tulip shapes.

PASSAGGIO 10 DI 12

After inking each subsequent stencil layer, lightly spray with water to create the watercolour effect. Be careful not to over-saturate the card. Use a white tool or cloth to gently blend if needed.

PASSAGGIO 11 DI 12

Once the watercolour spray is completely dry, use a paintbrush to flick gold confetti ink across the stamped tulip design, creating splatter details for extra sparkle and dimension.

PASSAGGIO 12 DI 12

Use the coordinating die to cut out the layered tulip design. Mount the die-cut piece onto a contrasting card base to complete your card.

CONSIGLI DALLA PUNTATA

- You only need to use the heart registration system once; after that, you can align the stencils by eye.
- Run the stencils under a hot tap at low pressure to clean them between colours—the ink slides off easily without needing a cloth.
- Do not over-spray with water when creating the watercolour effect, as too much water can cause the design to blur completely.
