

Embossed Leaf Die-Cut Card with Glitter Bug Powder

UN PROGETTO DALLA NOSTRA DIRETTA - SATURDAY LIVE - 11 FEBBRAIO 2023

IL PROGETTO

Create a striking card featuring a die-cut leaf on gradient patterned paper, embossed with glitter bug powder to create a dimensional, sparkly effect. The leaf design is heat-embossed in rose gold tones against a beautiful purple-to-pink ombré background. This technique uses sticky ink pads and heat-setting to achieve a jewel-like, textured finish that catches the light beautifully.

PASSO PASSO

PASSAGGIO 1 DI 8

Die-cut your leaf shape from decorative patterned paper. Use golden metallic or mirror cardstock for the best embossed effect.

5

PASSAGGIO 5 DI 8

Sprinkle Glitter Bug embossing powder generously over the stamped design, ensuring complete coverage of all the inked areas.

6

PASSAGGIO 6 DI 8

Tap off the excess glitter powder back into the container to avoid waste and keep your work area tidy.

7

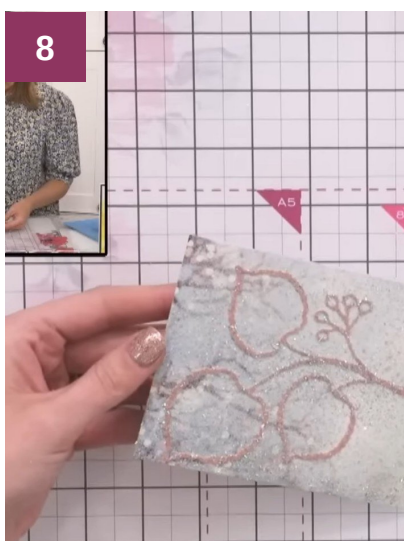

PASSAGGIO 7 DI 8

Heat-set the embossing powder using a heat gun, moving it continuously over the design to avoid overheating. Keep the heat gun moving until the powder has melted and set completely.

8

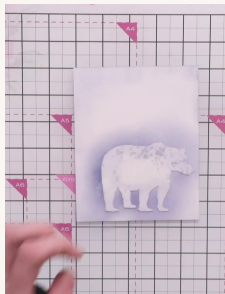

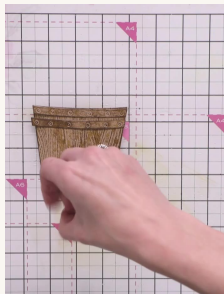

PASSAGGIO 8 DI 8

Allow the embossed and glittered card to cool completely before handling. The heat-embossed design needs time to set fully.

CONSIGLI DALLA PUNTATA

- Use a piece of cardstock underneath to catch any excess powder as you work.
- If your heat gun overheats, unplug it and let it cool before continuing.
- The glitter bug powder creates a chunky, dimensional effect that works well with metallic cardstock.
