IL PROGETTO FINITO

### IL PROGETTO

Make a cheerful hanging calendar decorated with bright stamped gaming motifs and speech bubbles on a dark textured background. Using vibrant primary colours and simple stamping techniques, you'll create a playful design featuring retro game consoles and fun sentiments. This project combines stamping, heat embossing, and basic assembly to produce a practical and eye-catching calendar for the new year.

### PASSAGGIO 1 DI 8

**Prepare a chunky board base by layering card together to achieve the desired thickness.** Edge the board with black ink to cover any grey edges and create a neat finish.

**Carefully hand-cut around each stamped image on the pink card, leaving a slight pink border around each design. Don't worry about achieving perfect accuracy - a relaxed, hand-cut look works well for this project.**

## CONSIGLI DALLA PUNTATA

- You can use scraps of patterned paper and card from your stash rather than buying new materials.
- Don't worry if the stamped pieces fall off the edge—it gives a nice cartoon-style effect.
- You could adapt this design as a notebook cover or blank notepad by adding paper and a pen instead of a calendar.
