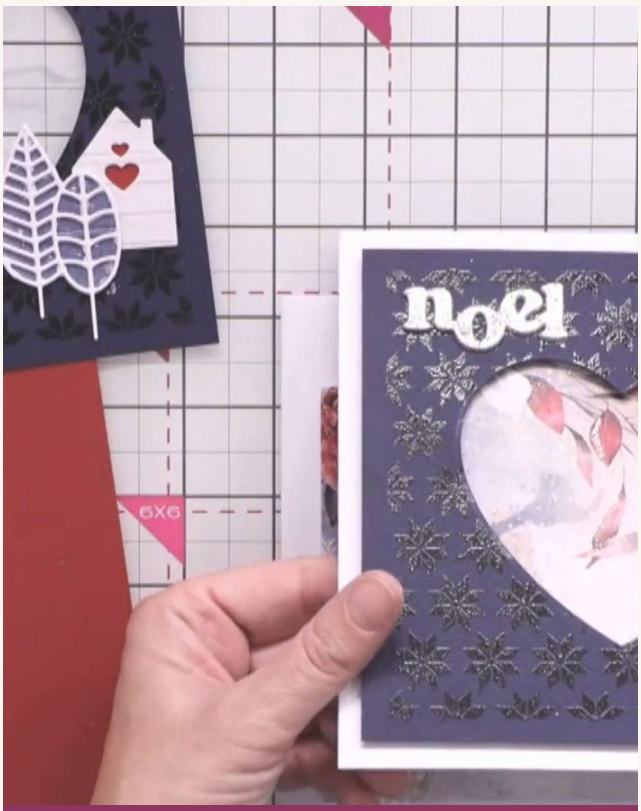
Nordic Star Heat Embossed Heart Aperture Card

UN PROGETTO DALLA NOSTRA DIRETTA - FUNKY TUESDAY - 18 OTTOBRE 2022



IL PROGETTO FINITO

IL PROGETTO

Create a striking Nordic-inspired card featuring a dark blue cardstock panel with a subtle clear heat-embossed star pattern. The design showcases a heart-shaped aperture revealing decorative patterned paper, layered with delicate die-cut trees and houses, and finished with a glittering heat-embossed festive sentiment. This elegant card combines sophisticated embossing techniques with dimensional die-cut elements for a beautiful winter-themed greeting.

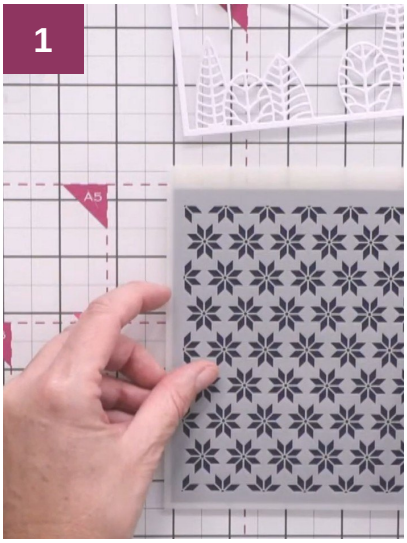
PASSO PASSO



PASSAGGIO 1 DI 10

Position the Nordic star stencil onto a piece of dark blue cardstock. Secure the stencil in place with tape, ensuring it is centred with even spacing around the edges.

PASSAGGIO 2 DI 10

Apply Versamark embossing ink to the white cardstock using a blending tool, working carefully over the positioned stencil to capture the Nordic star pattern. The slightly sticky ink will help the embossing powder adhere in the next step.

PASSAGGIO 3 DI 10

Remove the stencil carefully to reveal the inked floral pattern. Heat emboss the design using clear embossing powder and a heat gun to create a glossy watermark effect on the dark blue cardstock.

PASSAGGIO 4 DI 10

Die-cut a large heart aperture from the dark blue embossed panel using a heart die. The heart shape will be cut out, leaving a frame.

PASSAGGIO 5 DI 10

Select a patterned paper from the White Magic paper pad and position it behind the heart aperture on the navy card. Choose a design with a subtle plain background to frame a focal area of the pattern within the heart opening.

PASSAGGIO 6 DI 10

Die-cut tree elements from white cardstock using the Tree Line dies from the Country View die set. Layer the white die-cut trees over patterned paper sections from the card, positioning them to create a decorative border along the top of the aperture.

CONSIGLI DALLA PUNTATA

- Use a dedicated brush for embossing ink as it has a sticky nature that affects brushes differently than other inks.
- When cutting around die-cut shapes to hide paper behind them, angle your scissors slightly inward so the paper disappears behind the die edges.
- Apertures frame your design and guide the viewer's eye, making them a reliable default when uncertain about card composition.
