UN PROGETTO DALLA NOSTRA DIRETTA - FRIDAY LAUNCH - 30 SETTEMBRE 2022

IL PROGETTO FINITO

IL PROGETTO

Create an interactive tunnel pocket page insert for your scrapbook album featuring elegant white florals on a black background. This clever design includes a sliding tag mechanism that allows you to display different photos or messages by pulling them through the channel opening. The project combines decorative patterned papers with quote strips and uses simple folding and layering techniques to create the tunnel effect.

CONSIGLI DALLA PUNTATA

- If the tunnel feels too tight, trim the edges further with scissors to allow smooth sliding.
- You can partially glue items inside the tunnel (three-quarters of the way down) to keep them in place while still allowing some movement.
