

Vaso a strati con fogliame e fiori

UN PROGETTO DALLA NOSTRA DIRETTA - ONE DAY SPECIAL - 23 GENNAIO 2026

IL PROGETTO

Create an elegant layered vase design with delicate foliage and flowers in soft pink and blue hues. This project uses stencilling and die-cutting techniques to build dimensional vases with a crystal glass effect, enhanced with pretty floral embellishments. The design combines reverse stencil work and careful layering to achieve a beautiful three-dimensional papercraft piece.

CONSIGLI DALLA PUNTATA

- Cut foliage tall rather than short so you have more to work with and can trim down as needed.
- Line up stencils at the edge of your card stock or follow the heart guides for consistent placement.
- You can use embossing powders on the greenery to make it shiny like real leaves in sunlight.
