IL PROGETTO FINITO

IL PROGETTO

Create a charming layered MDF decoration featuring an autumnal forest glade scene with a 'Thankful' sentiment. This rustic piece uses simple staining techniques with acrylic inks on untreated MDF to achieve a warm, wood-stained effect in golden yellows and browns. The design incorporates die-cut trees, leaves and a decorative banner, perfect for seasonal gifting or home décor.

**PASSAGGIO 5 DI 9**

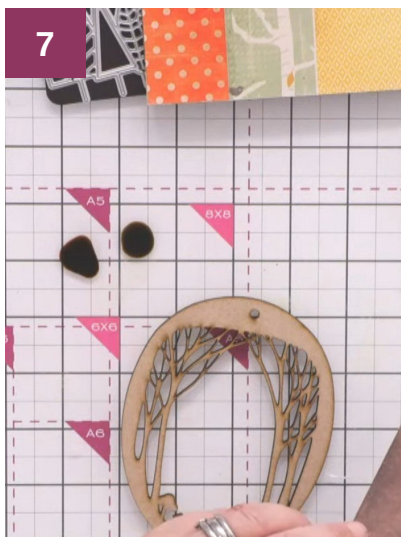

Lightly sand the edges of the MDF piece with a fine-grade sanding block, sanding away from yourself to help the paper adhere and tidy the edges.

**PASSAGGIO 6 DI 9**

Apply acrylic ink or Distress ink directly onto the MDF overlay piece using colours such as Burnt Umber and Raw Umber. Allow the MDF surface to absorb the colour for a wood-stained effect.

**PASSAGGIO 7 DI 9**

Layer the stained MDF wreath overlay on top of the stained heart-shaped MDF base piece, aligning them together to create the complete decoration.

CONSIGLI DALLA PUNTATA

- You don't need gesso on untreated MDF if you're covering it with paper; simply glue the paper directly to the surface.
- Acrylic inks or Distress inks applied directly to untreated MDF create a lovely wood-stained effect without needing additional coatings.
- If using acrylic paint, apply gesso first as MDF is very thirsty and will require more paint layers for good coverage.
