

Biglietto con elleboro a strati e dettagli in rilievo

UN PROGETTO DALLA NOSTRA DIRETTA - HSN PRODUCT INSPIRATION - 8 SETTEMBRE 2026

IL PROGETTO

Craft a stunning hellebore flower card with layered pink and white petals edged in deep burgundy tones. Using pre-printed double-sided paper, you'll create realistic depth without colouring by die-cutting, shaping and layering the botanical elements with coordinating green leaves. The technique involves curving petals for dimension and assembling the flowers with embossed details for an elegant, sophisticated finish.

PASSO PASSO

PASSAGGIO 1 DI 8

Select a coloured paper from the hellebore collection. Note that the papers feature pre-printed shading and veining on both sides to create realistic flower petals.

PASSAGGIO 2 DI 8

Place the connected die set onto your die-cutting machine, ensuring the paper is positioned correctly with the printed side facing up. Store the dies back in their packaging when finished.

PASSAGGIO 3 DI 8

Run the die set through your die-cutting machine in one pass to cut all three flower sizes and the accompanying leaves simultaneously. Store the cut pieces back in the decant packaging to keep them organised.

5

PASSAGGIO 5 DI 8

Layer the three flower sizes together, starting with the largest at the bottom, then the medium, and finally the smallest on top. Use a small spot of glue in the centre to secure each layer.

6

PASSAGGIO 6 DI 8

Position the two green leaves beneath the layered flowers, angling them naturally to frame the bloom. Place one leaf on each side of the flower arrangement.

7

PASSAGGIO 7 DI 8

Take the small sprigly element and roll it tightly. Secure the rolled piece in the centre of the hellebore flower using glue to create a 3D centre detail.

CONSIGLI DALLA PUNTATA

- The double-sided printed paper eliminates the need for colouring, as the pre-printed shading creates realistic depth and dimension.
- The connected die system means all pieces stay together, preventing loss of small elements.
- You can interchange leaves from different flower sets if you own multiple collections to create varied designs.
