PASSAGGIO 7 DI 12

Take your shaped card piece and prepare to create your lamination scene. Using the two-part stamp technique, first stamp the solid colour portion with greens and browns from the Beauty of Nature stamp set. Spray lightly with water to blend the colours together, then add the detail stamp over the top in black ink.

CONSIGLI DALLA PUNTATA

- When cutting the shaped border, ensure the die overhangs the score line so the score line is not cut through.
- Use normal card stock for this project if you want the ink to dry quickly; watercolour card allows more blending time but dries slower.
- The embossed detail on the die-cut border adds visual interest and makes the card look more professional.
