CONSIGLI DALLA PUNTATA

• Pre-heat your heat gun before applying it to the card to prevent lumps and bumps in the card stock.
• When using anti-static powder with stamps, the powder may stick to the stamp and reduce adhesion; if this happens, rinse the stamp under lukewarm water with a little washing-up liquid and allow to air dry.
• Soften harsh lines in your watercolour background by gently splotting with your finger to blend the colours together.
