PASSO PASSO

1

PASSAGGIO 1 DI 6

Ink up the tree embossing folder with a light colour ink pad, tapping both sides to ensure good coverage. Use a light ink such as Pure White or Cotton to create subtle definition on the embossed areas.

2

PASSAGGIO 2 DI 6

Lightly spray the inked embossing folder with water using a spray bottle. This will create a wet, blended watercolour effect on the embossed design.

3

PASSAGGIO 3 DI 6

Place your new piece of card stock onto the wet, inked embossing folder and run it through your embossing machine to transfer the ink and create the embossed pattern.

4

PASSAGGIO 4 DI 6

Remove the card from the craft mat and use a tissue or your finger to gently soften any harsh edges or bleeding ink lines on the watercoloured design.

5

PASSAGGIO 5 DI 6

Stamp the tree design onto the dry watercoloured background using black pigment ink. Position the stamp centrally on the card and press firmly to ensure a clear impression.

6

PASSAGGIO 6 DI 6

Stamp the tree image multiple times onto the card to build up the colour intensity, as the card may still be slightly damp from the spray. Continue stamping until you achieve the desired depth of colour.

CONSIGLI DALLA PUNTATA

- You can get different looks by varying the amount of water you spray and the colours you use.
- Dry your card with a heat tool before stamping to ensure better ink pickup.
- Less ink, more water, or more ink, less water all produce different effects, so experiment with what works for you.
