

Floral Fusion Layered Trellis Card with Dimensional Effect

UN PROGETTO DALLA NOSTRA DIRETTA - MY PODCAST - 10 FEBBRAIO 2025

IL PROGETTO

Create a sophisticated layered card featuring an elegant floral design with the word 'GORGEOUS'. This dimensional project uses a pink peony flower with leaves on a dark floral background, creating depth through multiple stacked layers. The technique involves die-cutting and layering the same pattern to achieve a striking three-dimensional trellis effect.

CONSIGLI DALLA PUNTATA

- When using the trellis die on coloured card stock, go over it with gilding waxes and confetti paints, dry brushing to bring out the wood texture and create realism in the wood grain.
- The trellis die is the hero of this kit and will be used repeatedly in your projects.
- The leaves can weave in and out of the trellis pattern for added visual interest.
