

Monochromatic Dreamy Blooms Layered Card

UN PROGETTO DALLA NOSTRA DIRETTA - CREATE TOGETHER CLUB - 10 FEBBRAIO 2025

IL PROGETTO

Create a sophisticated monochromatic birthday card featuring a beautiful layered bloom design. Using the Dreamy Blooms stencil and stamps, you'll build up dramatic grey tones on black cardstock with a water-sprayed resist technique for an artistic, abstract finish. The result is an elegant, contemporary card with striking visual depth perfect for special occasions.

CONSIGLI DALLA PUNTATA

- You can create a monochromatic effect in any colour by using card blanks and ink pads in the same colour family—try red, pink or yellow for different moods.
- If you cut the die-cut foliage, you will lose some of the splat details, but you can preserve them by using the stencils on the background paper instead.
- Create together Club encourages you to use alternatives from your existing craft stash rather than purchasing new items each time.
