2

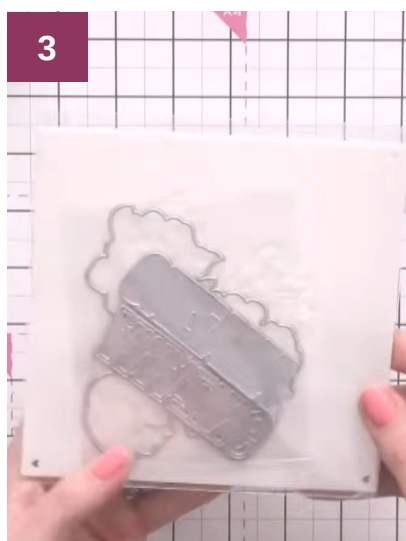

PASSAGGIO 2 DI 11

Locate stencil number one from your numbered stencil set. This will be the first layer you'll use to create your design on the watercolour paper.

3

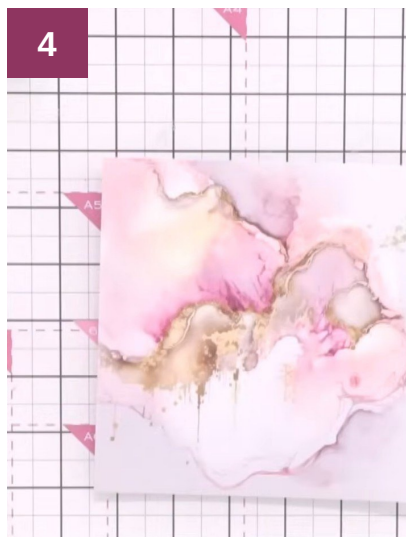

PASSAGGIO 3 DI 11

Position the stencil on your white card panel, aligning it with the edge of the paper or using the heart registration marks in the corner to ensure proper placement.

4

PASSAGGIO 4 DI 11

Ink through stencil number one using your chosen colour. Tap off excess ink from the applicator before applying to ensure even coverage. This creates a soft watercolour background with bright pink and gold tones.

PASSAGGIO 5 DI 11

Position the second stencil over your paper, lining it up with the first stencilled design. You can choose to align it with the hearts or trim them down as desired.

PASSAGGIO 6 DI 11

Ink through stencil number two using the same pink ink or a slightly darker shade. Apply the ink with a blending brush, working over the floral design to add depth and dimension to your stencilled image.

PASSAGGIO 7 DI 11

Continue layering with stencils three, four, five and six using the same pink ink. Gradually build up the depth and detail of the floral design, darkening the colour as you progress through each layer.

8

PASSAGGIO 8 DI 11

Carefully remove the stencil from your card to reveal the completed layered floral design. The pink flowers should now show depth and dimension from the multiple ink layers.

9

PASSAGGIO 9 DI 11

Optionally spray the finished stencilled design lightly with water using a spray bottle to create an artistic watercolour effect. Allow the water to blend the pink ink naturally across the paper.

PASSAGGIO 10 DI 11

Add a sentiment to your card. You can use the coordinating word die from the set to cut out a sentiment, or stamp a greeting directly onto the card front using a stamp and ink pad.

CONSIGLI DALLA PUNTATA

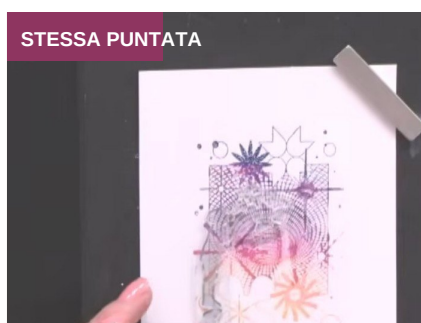

- Make multiple cards at once by doing all number ones on five cards, then all number twos, and so on—this is more efficient than completing one card at a time.
- If you spray the card with water and lose the design, don't throw it away; go back over it with your stencils to bring it back.
- The stencils are numbered so you can see exactly which order to use them in and create the design correctly every time.
