PASSAGGIO 3 DI 10

Ink up both sides of the embossing folder using a distress oxide ink pad in your chosen colour, such as faded jeans. Tap the ink pad over the entire surface of both the top and bottom of the folder to ensure even coverage.

PASSAGGIO 5 DI 10

Place the inked embossing folder onto the wet watercoloured card. Position it carefully, then run the card and folder through your die-cutting machine to transfer the ink design onto the card.

PASSAGGIO 6 DI 10

Wet each flower individually with clean water using a brush. Drop pink, yellow and green ink onto the wet areas to create a watercoloured effect. The ink will only go where the paper is wet.

PASSAGGIO 7 DI 10

Continue adding pink ink to the wet areas to build up depth and colour variation. The ink will naturally flow and blend whilst still wet, creating darker tones where more colour is applied.

PASSAGGIO 8 DI 10

Once the watercoloured card is dry, re-ink the embossing folder with white pigment ink and run the card through the die-cutting machine again to bring back the embossed detail over the watercoloured design.

GUARDA QUESTO PASSAGGIO - 58:00

PASSAGGIO 9 DI 10

Trim the edges of the embossed card panel neatly, taking care to preserve the chamfered edge created by the embossing folder.

PASSAGGIO 10 DI 10

Add a sentiment or embellishment to complete your card. The example shows a clear acetate panel with embossed floral detail placed over the coloured background to add dimension and texture to the finished design.

CONSIGLI DALLA PUNTATA

- Use watercolour card stock for better results than standard cardstock.
- If the card dries too quickly whilst painting, add more water to keep the ink flowing naturally.
- You can repeat the embossing process multiple times to layer detail and bring back definition after watercolouring.
