

Layered 3D Rose Card with Stencil System

UN PROGETTO DALLA NOSTRA DIRETTA - CREATE AND CRAFT TV - 9 GIUGNO 2024

IL PROGETTO

Create a beautiful dimensional floral card using a five-layer stencil system with coordinating die. By layering stencils and adding colour, you build up a stunning 3D rose design with pink roses and green foliage on a soft watercolour background. The technique gives a professionally painted look with depth and dimension, perfect for special occasions.

PASSO PASSO

PASSAGGIO 1 DI 8

Gather your five numbered stencils (A1, A2, A3, A4, A5) and coordinating die. Note the pre-punched hearts in the corners of each stencil for alignment purposes.

PASSAGGIO 2 DI 8

Place stencil number one on your white card stock, aligning it as desired. Apply ink through the stencil using a blending brush, working the colour through the cut-out areas.

PASSAGGIO 3 DI 8

Use a heat tool to dry the first inked layer completely. Once dry, lightly moisten the inked area with water using a brush to create a soft watercolour effect.

PASSAGGIO 4 DI 8

Position the second stencil on top of your card stock, lining it up with the edge or using the heart registration guides. Apply a different colour of ink through the stencil using a blending brush.

PASSAGGIO 5 DI 8

Continue building up the rose design by applying stencils three, four and five in sequence. Use a different colour of Dye Ink for each layer, such as brown (Brou de noix) and pink (Rosée). Allow each layer to dry completely before applying the next stencil.

PASSAGGIO 6 DI 8

If you've lost definition of your rose shape, return to stencil one and re-apply the original ink colour to redefine the outline. Use a blending brush to carefully add the ink back over the rose areas that need more definition.

PASSAGGIO 7 DI 8

Use the coordinating die to cut out your finished design for a clean edge. Position the die over the painted panel and run through your die-cutting machine. Alternatively, leave it as a painted panel without die-cutting.

PASSAGGIO 8 DI 8

Mount your completed rose panel onto a card base using adhesive. Position the panel centrally on the card front to create your finished layered 3D rose card.

CONSIGLI DALLA PUNTATA

- There are no rules in crafting—if you're unhappy with the result, change the colour or start again.
- You can use the detailed stencil portion on its own and colour it with traditional markers, pens or pencils if you prefer not to spray.
- If you've over-sprayed and lost your design, simply reapply stencil one to confirm and redefine the shape.
