

Layered Card with Stencil Background and Ephemera

UN PROGETTO DALLA NOSTRA DIRETTA - CREATE AND CRAFT TV - 3 APRILE 2024

IL PROGETTO

Create an elegant layered card featuring a soft lavender and floral background with dimensional ephemera elements. This project combines stencilling techniques with fussy-cut vintage-style images including butterflies, birds, and botanical motifs, finished with a stamped sentiment. The result is a sophisticated card with beautiful depth and a romantic, cottage-garden aesthetic in purple, pink, and cream tones.
