UN PROGETTO DALLA NOSTRA DIRETTA - CREATE AND CRAFT TV - 11 MARZO 2024

IL PROGETTO FINITO

IL PROGETTO

Create a stunning botanical card featuring a vibrant yellow flower with hot foil detailing. Using watercolour inks on pre-foiled designs, you'll achieve a beautiful resist effect where the gold foil repels the colour, creating professional-looking petals with luminous highlights. This simple technique produces an elegant handmade card with minimal effort and maximum impact.

CONSIGLI DALLA PUNTATA

- The gold foil will resist your ink, so even young crafters can achieve professional results.
- The watercolour card stock has high cotton content, so it stays wet longer than traditional card, giving you more time to work.
- You can leave the pages in the book and fold them back, or tear them out and trim them down in a guillotine.
