PASSAGGIO 2 DI 8

Select your chosen ink colour and apply it through the first layer of the stencil. Use the heart-shaped registration guides on the stencil to position it accurately on your card base.

PASSAGGIO 3 DI 8

Continue building up the floral design by repeating the stenciling process with layers two, three, four, and five in sequence. Allow each layer to dry slightly before adding the next to prevent colours from bleeding together.

PASSAGGIO 4 DI 8

For a single-layer effect, use metallic inks on just one stencil layer for subtle detail. This creates a more understated look compared to the multi-layered approach.

Use the coordinating die from the Perfect Bloom set to cut out the exterior decorative shape of your stencilled floral design.

CONSIGLI DALLA PUNTATA

- You don't need multiple ink pads; use the same colour in light to dark tones for beautiful results.
- The stencil system makes you look like an artist even if you're not confident with freehand techniques.
- You can cut smaller cards from the design or use just segments of the layering stencils.
