

Garden Frame Foliage Die-Cut Card with Layered Sentiment

UN PROGETTO DALLA NOSTRA DIRETTA - CREATE AND CRAFT TV - 22 GENNAIO 2024

IL PROGETTO

Create a stunning layered card featuring delicate foliage die-cuts framing a watercolour floral scene in soft purples and pinks. This elegant design uses the Garden Frame die to build dimensional layers around a central window, creating a beautiful three-dimensional effect. The white die-cut foliage provides a crisp contrast against the gentle watercolour background.

Apply glue to the back of the foliage die-cut pieces and layer them onto the card front, offsetting and building up the layers for dimension. Position the pieces to create an attractive arrangement around the aperture.

CONSIGLI DALLA PUNTATA

- If the die hasn't cut all the way through, adjust the pressure dial slightly and run it through again.
- You can leave the centre piece in place if you prefer a solid look, or remove it to create a window frame.
- The die is symmetrical inside, which means there are many more design possibilities when you twist and layer the pieces.
