

Inked Bride and Groom Embossed Card with Watercolour Spray Effect

UN PROGETTO DALLA NOSTRA DIRETTA - CREATE AND CRAFT TV - 3 GENNAIO 2024

IL PROGETTO

Create a romantic wedding card featuring an elegant bride and groom design with a beautiful watercolour spray effect. Using a 3D embossing folder inked in soft pink tones and sprayed with water, you'll achieve a delicate watercolour wash background. Layer both the embossed and debossed sides of the design to add depth and dimension to your finished card.

CONSIGLI DALLA PUNTATA

- You can reposition the design back in the embossing folder and run it through again if the colour is not dark enough or if you want to change it.
- Always go light with colour and add more rather than trying to pull colour back.
- The high definition embossing folders work through all die-cutting machines despite their extra dimension.
