

Flutterby Cover Plate Card with Layered Butterflies

UN PROGETTO DALLA NOSTRA DIRETTA - CREATE AND CRAFT TV - 29 DICEMBRE 2023

IL PROGETTO

Create an elegant card featuring delicate butterflies that appear to flutter off the page. Using the Flutterby cover plate die, you'll cut intricate butterfly shapes from patterned paper and layer them with gold glitter accents on a white background. The dimensional layering technique creates a beautiful 3D effect, with an 'Enjoy Your Day' sentiment completing this sophisticated design.

Add a sentiment stamp to the card. Position a small rectangular stamp reading 'Enjoy your day' or similar to the lower left area of the card front, below the butterfly arrangement.

PASSAGGIO 8 DI 8

Fold the card in half and view it from the side to appreciate the three-dimensional effect of the layered butterflies bursting from the page. The white and gold glitter butterflies create depth and dimension against the floral background.

CONSIGLI DALLA PUNTATA

- You can cut the design smaller by trimming away some of the butterflies with scissors if you prefer a smaller focal point.
- Don't waste the exterior die-cut pieces; use them as decorative elements on the inside of the card.
- The mat and layer built into the design means you can create shaped cards, edge cards, or place the design on envelopes without needing special techniques.
