2

PASSAGGIO 2 DI 9

Before beginning the embossing process, heat your heat gun fully so it's ready to use. This ensures the embossing powder will melt evenly when applied.

6

PASSAGGIO 6 DI 9

Heat set the embossing powder with your pre-heated heat gun, moving quickly across the design. Keep the heat gun moving to avoid scorching the card. The powder will melt and become shiny and raised.

PASSAGGIO 7 DI 9

Once the embossed piece has cooled completely, trim it down to size to fit your card front, ensuring the cityscape and fireworks design is centred.

PASSAGGIO 8 DI 9

Apply glue to the back of the trimmed vellum piece and mount it onto a white card blank, smoothing it down carefully to ensure it adheres evenly.

PASSAGGIO 9 DI 9

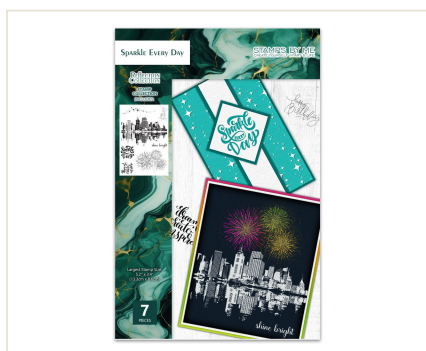

Add a sentiment using washi tape to the card front. Position it to the side of the cityscape, ensuring it complements the embossed fireworks without covering them.

CONSIGLI DALLA PUNTATA

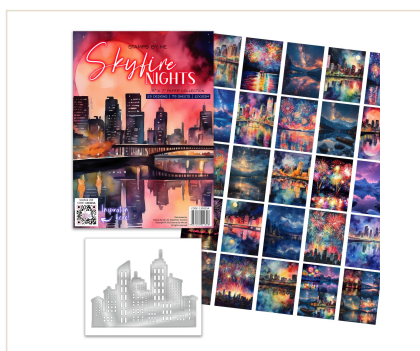

- Always pre-heat your heat gun before applying it to prevent lumps and bumps in the embossing.
- Choose embossing powder colours that complement the paper's tone; lighter papers work well with vibrant colours.
- Position fireworks in a corner or upper area to leave room for sentiments on the card.
