

Double-Glazed Window Card with Holographic Background

UN PROGETTO DALLA NOSTRA DIRETTA - CREATE AND CRAFT TV - 17 OTTOBRE 2023

IL PROGETTO

Create an elegant card featuring a double-glazed window effect using layered window dies. Position holographic card stock behind the windows to simulate shimmering northern lights or glass reflections, with snowy winter scenes visible through each pane. The layered construction creates genuine depth and a sophisticated three-dimensional perspective.

PASSO PASSO

PASSAGGIO 1 DI 7

Cut out your first window die from white or coloured card stock using your die cutting machine. The die creates a house shape with open window frames.

CONSIGLI DALLA PUNTATA

- The shadow details on the window dies add realistic depth and make the windows look three-dimensional.
- You can open the windows like doors if you score and fold them appropriately.
- Holographic or patterned card stock behind the windows creates the illusion of reflections or views.
