

Four-Window Card with Shaded Apertures

UN PROGETTO DALLA NOSTRA DIRETTA - CREATE AND CRAFT TV - 16 OTTOBRE 2023

IL PROGETTO

Create an elegant four-window card featuring delicate apertures with shaded details that add depth and dimension. This charming design showcases winter imagery including a bird in a festive hat, red berries, and a bright red cardinal, all framed within individual windows. The shading technique creates the illusion of looking into miniature scenes, enhanced by fussy-cut elements layered on top for a professional finish.

CONSIGLI DALLA PUNTATA

- The shadow detail is what sets these windows apart – it creates perspective and makes the card look three-dimensional even when flat.
- You can frame each window with the shadow pieces if you layer them carefully.
