Biglietto con papavero 3D a strati

UN PROGETTO DALLA NOSTRA DIRETTA - THE ART OF CARDISTRY - 2 OTTOBRE 2023

IL PROGETTO FINITO

IL PROGETTO

Create a stunning three-dimensional poppy card featuring beautifully layered flowers in coral, pink and orange tones against a striking black and white striped background. This elegant design uses heat embossing and die-cutting techniques to build realistic depth, with multiple flower layers offset and raised on foam pads to create wonderful movement and dimension.

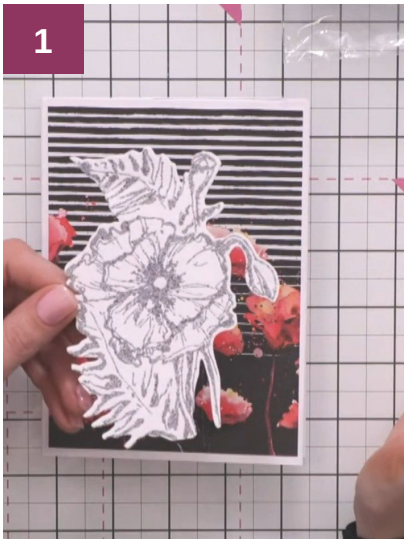
PASSO PASSO

1



PASSAGGIO 1 DI 8

Heat-emboss the poppy stamp onto white cardstock using silver or rose gold embossing powder. The design features a large poppy flower with leaves and stems.

PASSAGGIO 2 DI 8

Die-cut the embossed poppy design twice to create two identical flower pieces. Carefully remove the die-cut flowers from the card, ensuring all the delicate petals and leaves are separated cleanly.

CONSIGLI DALLA PUNTATA

- You can layer the flowers three times if you want to achieve maximum 3D effect.
- Twisting and manipulating the design creates a more realistic, natural appearance.
- You do not need to colour the leaves green; white works beautifully on its own.
