PASSAGGIO 2 DI 7

Carefully pop out the stag's nose and mouth details from the die-cut shape. Remove these small pieces from the centre of the stag head design.

PASSAGGIO 3 DI 7

Mount the white stag head die-cut onto black cardstock to create a backing layer. This prevents the stag from appearing to float and provides definition to the design.

PASSAGGIO 6 DI 7

Weave the decorative light elements from the die set into the gold bar behind the stag's antlers without gluing them. Allow them to sit loosely for added texture and dimension.

CONSIGLI DALLA PUNTATA

- You can create a drop shadow effect by offsetting the stag slightly to the right or left before gluing.
- The lights can be woven in rather than glued, giving you flexibility to adjust the design.
- This design works well for Christmas crackers, gift tags, and memory albums, not just cards.
