Textured Lantern Card with Coloured Back-Stamp Technique

UN PROGETTO DALLA NOSTRA DIRETTA - THE INSTANT ARTIST - 1 LUGLIO 2023

IL PROGETTO FINITO

IL PROGETTO

Create a beautiful vintage-style lantern card using a clever back-stamping technique. This project features a golden yellow lantern with textured details and delicate pink splatter accents, achieved by stamping colour on the back of your stamp before overlaying with black ink. The result is a stunning halo effect that gives your design depth and a hand-coloured appearance without the need for traditional colouring methods.

CONSIGLI DALLA PUNTATA

- This back-stamping technique is perfect for crafters who are nervous about colouring or don't have colouring supplies.
- The coloured base will show as a halo around the detailed stamp, creating a vintage, textured appearance.
- You can add additional colour details with pens or pencils after stamping if desired, but the technique works beautifully on its own.
