CONSIGLI DALLA PUNTATA

- Start with the lightest ink pressure on the first stencil layer and gradually press harder with each subsequent layer to build natural shading without needing multiple ink pads.
- If your embossing ink pad feels dry, use a heat gun to dry the card slightly before applying powder to prevent it sticking to unwanted areas.
- You don't need to use every component of the Quattro set - the stamp, stencils, die and embossing folder can all be used independently or in any combination.
