

Cross Design with Patchwork Embossing Technique

UN PROGETTO DALLA NOSTRA DIRETTA - CREATE AND CRAFT TV - 29 MAGGIO 2023

IL PROGETTO

Create a striking patchwork cross card by embossing two identical pieces of cardstock together, then cutting them into quarters and reassembling them in a rotated pattern. This technique produces a symmetrical, dimensional cross with beautiful colour blocking in vibrant neon green, orange, and black. The result is a modern, geometric design with eye-catching contrast and raised texture.

PASSO PASSO

PASSAGGIO 1 DI 6

Take two pieces of cardstock that are exactly the same size and stack them together, ensuring they are perfectly aligned.

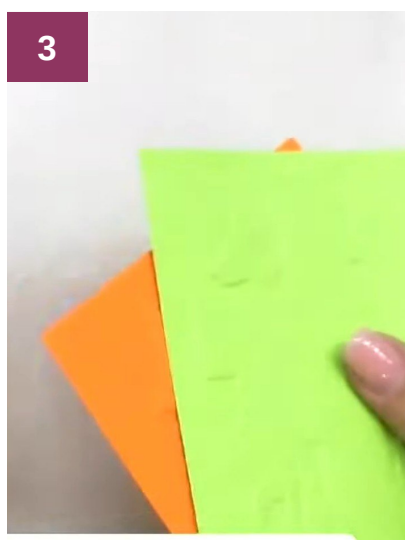

[GUARDA QUESTO PASSAGGIO - 39:45](#)

PASSAGGIO 2 DI 6

Place your orange cardstock on top of the white cardstock and run both pieces together through your 3D embossing folder. This will create the cross design on both pieces simultaneously.

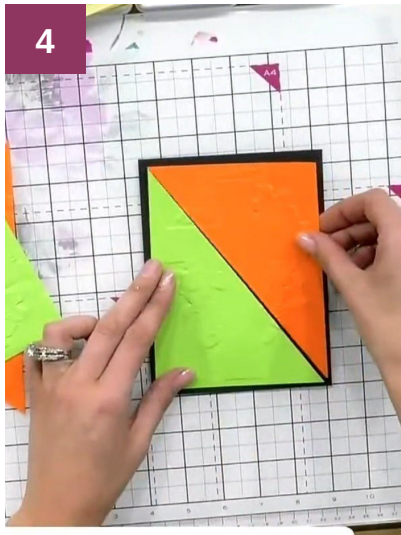

[GUARDA QUESTO PASSAGGIO - 40:15](#)

PASSAGGIO 3 DI 6

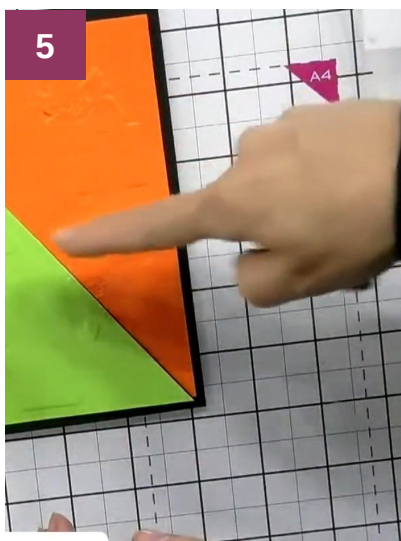

Remove the embossed cardstock pieces from the folder. Use a guillotine or paper trimmer to cut each piece diagonally from corner to corner, creating four triangular sections from each embossed square.

[GUARDA QUESTO PASSAGGIO - 41:00](#)

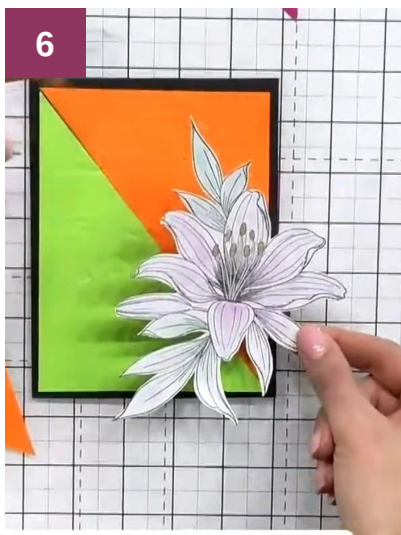

PASSAGGIO 4 DI 6

Rotate the embossed triangular sections and arrange them to create a patchwork cross design. Position the lime green and orange triangles to form a new radial pattern with the cross design reassembled in the centre.

[GUARDA QUESTO PASSAGGIO - 41:30](#)

PASSAGGIO 5 DI 6

Arrange the four embossed sections back together on your card base, alternating the orange and green triangles to create a cross or patchwork pattern as desired.

[GUARDA QUESTO PASSAGGIO - 42:00](#)

PASSAGGIO 6 DI 6

Arrange and glue all the coloured triangular sections together to form the cross design on your card base. Position the stamped and coloured floral element on top to complete your patchwork embossed card.

CONSIGLI DALLA PUNTATA

- Be mindful of the total cardstock weight when running two pieces through your embossing machine—200 GSM each should be fine, but thicker card may jam.
- You can cut the sections into four squares instead of triangles for a different patchwork effect.
- This technique works beautifully with different coloured cardstocks to create striking colour-blocked designs.
