STAP VOOR STAP

1

STAP 1 VAN 9

Place stencil number one on your white cardstock. Apply purple ink through the stencil using an ink pad or blending tool, working the colour evenly across the design.

2

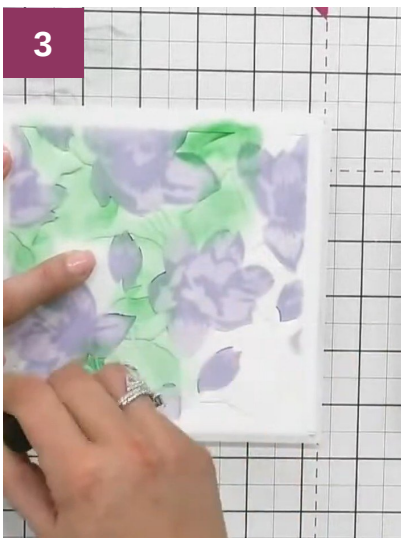

STAP 2 VAN 9

Apply a second layer of purple ink over the same areas where you applied the first layer, building up depth and dimension in the design.

3

STAP 3 VAN 9

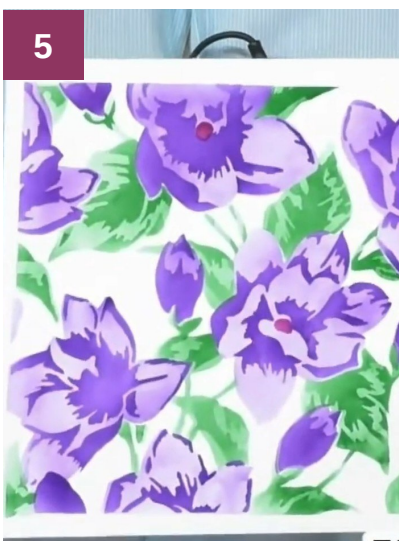

Position stencil number two over your watercolour paper and apply Hedgerow green ink through the stencil using a blending brush to add the flower centres.

[BEKIJK DEZE STAP - 31:00](#)

STAP 4 VAN 9

Use the pink stencil to apply pink ink over the floral design, adding colour variation and detail to the flowers and leaves. Work through the stencil pattern to build up the layers of colour.

[BEKIJK DEZE STAP - 31:45](#)

STAP 5 VAN 9

Stamp the floral two-part stamp onto your stencilled background using purple and green inks. Position the stamp to create a pleasing arrangement that complements the layered design.

[BEKIJK DEZE STAP - 34:00](#)

STAP 6 VAN 9

Tap off excess embossing powder from the stamped image. The powder should only remain on the stamped areas where the ink is still wet.

[BEKIJK DEZE STAP - 35:00](#)

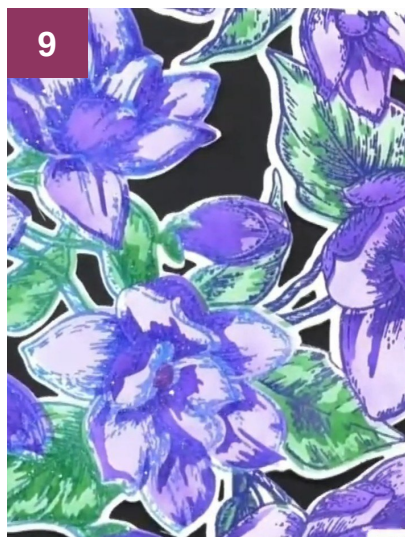

STAP 7 VAN 9

Use the coordinating die to cut out the stamped floral design. The die should fit neatly into the white space within the stencilled purple border area.

[BEKIJK DEZE STAP - 36:00](#)

STAP 8 VAN 9

Place your stamped and coloured card into the coordinating 3D embossing folder. Run it through your die-cutting machine to add dimension and create a bevelled frame effect around the floral design.

[BEKIJK DEZE STAP - 43:00](#)

STAP 9 VAN 9

Mount the finished embossed purple flower piece onto your card base to complete your layered card.

TIPS UIT DE SHOW

- You don't need to line up the stencils perfectly—slight variations still look wonderful.
- You can use just the stencil layer alone if you wish, or build up through all four elements for maximum impact.
- The embossing powder can be mixed or layered for different colour effects, such as a salt-and-pepper technique.
