If you wish to reuse the die, tape it back into the embossing folder. Alternatively, leave it out for future use.

STAP 5 VAN 7

Adhere an acetate sheet from the kit to the back of the embossed card front using a tape runner. This will create the window for your shaker card.

STAP 6 VAN 7

Add your chosen embellishments into the shaker window space. Use sequins, glitter, buttons, or other decorative items in coordinating colours. The embellishments will move freely within the acetate window when the card is shaken.

Seal the shaker by adhering a backing card to the reverse of the shaker element to complete the card. Ensure all edges are securely attached to contain the sequins or embellishments inside.

TIPS UIT DE SHOW

- The dies are strong enough to work independently if you want to remove them from the embossing folder.
- You can use any embellishments from your stash—sequins, glitter, buttons, coins, tiles, or even shoelaces for children's cards.
- If you don't use the die, you get the beautiful traditional 3D embossing folder with the chamfered frame.
