

Gold Embossed Card with Decorative Corner Element

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV- SBM ONE DAY SPECIAL - 5 MEI 2023

OVER DIT PROJECT

Create an elegant card featuring a sophisticated gold embossed decorative corner element. This design showcases satin gold embossing on a delicate floral image, paired with coordinating patterned paper to create a refined, layered look. The technique demonstrates how to use embossing folders to add luxurious metallic accents as corner features rather than full frames.

STAP 4 VAN 7

Using scissors or a craft knife, carefully cut away one corner section from the embossed gold frame to create a decorative corner element. The snip ability of the embossed material makes it easy to cut precisely along the design lines.

TIPS UIT DE SHOW

- You don't have to use the embossed piece as a full frame; you can cut and repurpose the decorative elements as corner accents.
- The cardstock quality means you can use your best stash pieces with these folders.
- White on white creates a stunning pure look without additional embellishment.
