

Halo Floating Card with Stamped House and Vellum Overlay

EEN PROJECT UIT ONZE LIVESHOW - CREATE TOGETHER CLUB - 1 MEI 2023

OVER DIT PROJECT

Create an elegant 6x6 inch floating card featuring a charming stamped house design with decorative archway and foliage. Using a spritzing technique on kraft card layered with vellum, you'll achieve a soft, watercoloured halo effect around the white embossed image. The card is finished with embossed leaf details and a small sentiment tag for a sophisticated, dimensional look.

STAP VOOR STAP

1

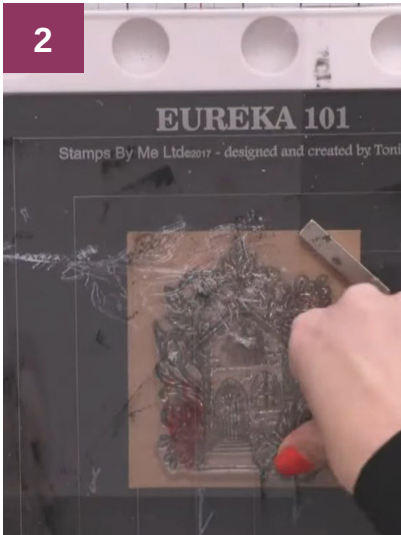

STAP 1 VAN 12

Gather your materials: a 6x6 card base, craft card in brown tones, gold card, acetate or vellum, coloured ink pads, water spray bottle, tissue, white gel pen, embossing powder, heat gun, and washi tape sentiments. Lay out your card base with the craft card and gold card ready for layering.

2

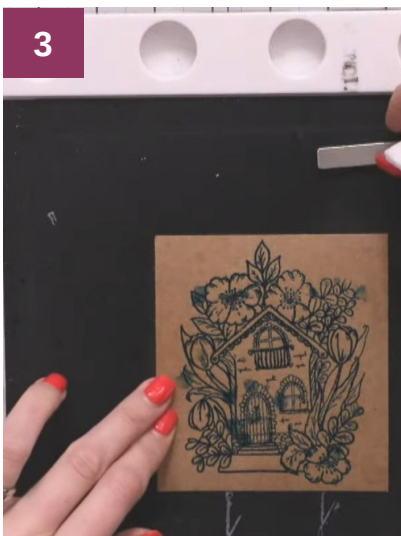

STAP 2 VAN 12

Stamp the Happy Home image onto the centre of the kraft card using your chosen ink pad, pressing firmly for a clear impression.

3

STAP 3 VAN 12

Spray the stamped image lightly with water to create a soft bleed effect. Gently mop up excess water with tissue to control the spread and prevent over-bleeding.

4

STAP 4 VAN 12

Stamp the same house image again over the wet inked area using the same ink colour. This will solidify the outline and create a defined halo effect around the stamped design.

5

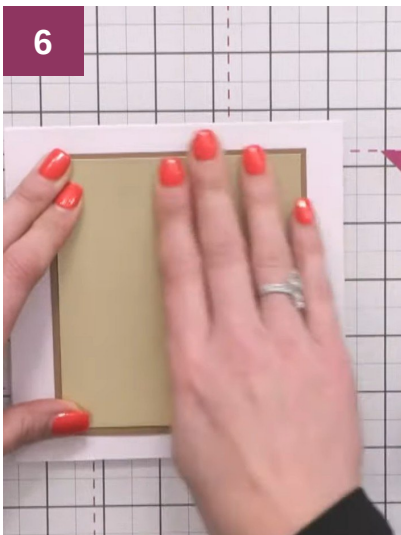

STAP 5 VAN 12

Use a white gel pen to add fine detail to the stamped image. Draw small lines and dots on the flower petals and add white dots to the windows to create highlights.

6

STAP 6 VAN 12

Assemble your card base by adhering the craft card piece onto the gold card, then mount both onto your 6x6 inch card base.

7

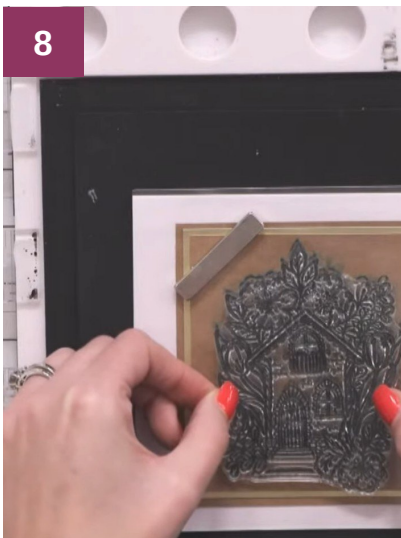

STAP 7 VAN 12

Score a line at the top of your acetate or vellum sheet. Fold the scored section over to create an overlay that will wrap around your card.

[BEKIJK DEZE STAP - 17:30](#)

8

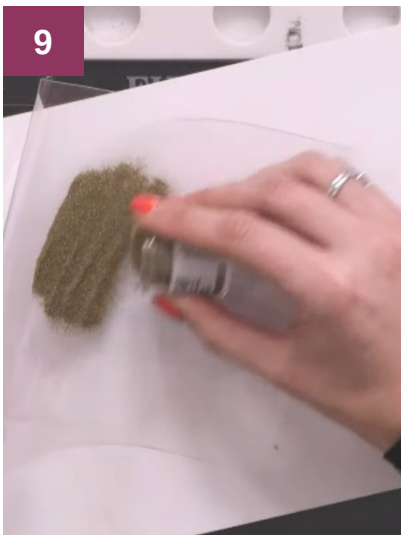

STAP 8 VAN 12

Position the acetate overlay over your stamped design. Stamp the Happy Home image onto the acetate using white or gold embossing ink, aligning it carefully over the kraft card image beneath.

[BEKIJK DEZE STAP - 19:00](#)

9

STAP 9 VAN 12

Apply embossing powder generously over the stamped acetate image. Use an embossing brush to carefully brush away any excess powder and remove fingerprints from the surface.

[BEKIJK DEZE STAP - 21:30](#)

10

STAP 10 VAN 12

Heat set the embossed acetate using a heat gun, working in small sections with on-and-off motions to avoid melting the acetate. Keep the heat gun moving continuously and work quickly to set the embossing powder without damaging the acetate.

[BEKIJK DEZE STAP - 24:00](#)

11

STAP 11 VAN 12

Trim the vellum overlay to size so it fits within your card layers. Tuck the vellum under the layered card pieces, securing with glue if needed to hold it in place.

[BEKIJK DEZE STAP - 42:30](#)

12

STAP 12 VAN 12

Finish the card by adhering a washi tape sentiment strip across the lower portion of the card. Choose a sentiment such as 'Sweet Friend' or 'Have a Great Day' to complete your floating halo card.

TIPS UIT DE SHOW

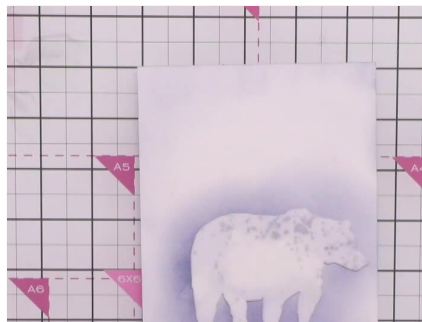

- If you don't have acetate, vellum works as a good alternative for the overlay.
- Use craft card for stamping as it looks incredible when stamped in white and coloured with pencils.
- When heat setting acetate, work in small bite-sized chunks and use on-and-off motions to prevent melting, even with heat-resistant acetate.
