

Sparkly Glitter and Powder Effect on Black Cardstock

EEN PROJECT UIT ONZE LIVESHOW - CREATE TOGETHER CLUB - 27 APRIL 2023

OVER DIT PROJECT

Create a festive, eye-catching effect by layering coloured embossing powders with chunky glitter on black cardstock. The combination of metallic gold powder and iridescent glitter creates a dimensional, celebratory finish perfect for special occasion cards. This technique uses heat embossing to build up rich, sparkly layers that catch the light beautifully.

TIPS UIT DE SHOW

- Heat from underneath the cardstock when using glitter to help it stay embedded in the powder.
- Tap off excess glitter gently to avoid losing too much of the sparkly effect.
- Layer multiple colours of embossing powder in a salt-and-pepper technique for a more interesting finish.
